## Bandpass Interference Filters

- Many CWL Options Available
- Ideal for Biomedical Applications and Instrumentation Integration
- Unmounted and Mounted Versions Offered

### Common Specifications

| Optical Properties                 |                               |                                 |                    |
|------------------------------------|-------------------------------|---------------------------------|--------------------|
| Optical Density OD (Average):      | ≥3.0                          | Coating:                        | Traditional Coated |
| Surface Quality:                   | 80-50                         | Blocking Wavelength Range (nm): | 200 - 1200         |
| Angle Sensitivity:                 | Intended for Collimated Input |                                 |                    |
| Environmental & Durability Factors |                               |                                 |                    |
| Operating Temperature (°C):        | -50 to +75                    |                                 |                    |
